TECHNICAL SKILLS

Javascript, Java, React, Ruby, Rails, NodeJS, SQL, PostgreSQL, HTML, CSS, Heroku, Git

TECHNICAL PROJECTS

Full-Stack-Application : "MALA-MALA" - Github | Demo
E-commerce site to buy and sell prayer beads (mala).
- Created a custom database with validation and authentication for restriction and security using Ruby.
- Implemented a Stripe API for users to checkout.
- Built up the backend association models to give inheritances to classes and controllers to connect with the frontend.
- Used OOP to access the class inheritance in order to render the subclass.

JavaScript-Application "CatTap" - Github | Demo
An interactive game that requires the users to click on moving images to score points.
- Used Figma to increase visuality with CSS.
- Fetching data from a Cat collection API and parsing the data to use the image only.
- Came up with logics to randomize the Cat image to show different Cat images.
- Utilizing the setTimeout() method and CSS display to make the Cat image appear and disappear randomly on the grid.

Full-Stack-Application : "FurBook" -Github | Demo
A social media app for pets to interact and make friends with other pets.
- Built the backend routes and databases using Ruby/Rails, Sinatra and PostgreSQL.
- Implemented authentication, authorization, validation and error handling to prevent security risk.
- Implemented semantic-us-react to design a beautiful website quickly.
- Utilized full CRUD so a user can create, view, edit, and delete posts.

EXPERIENCE

Lacquer Nail Bar, Atlanta, Georgia   October/2019 - July/2021
Nail Technician
- Provided beauty services to clients from diverse backgrounds with 100% customer satisfaction rate.
- Used active listening skills to help clients make decisions and provide feedback for best possible experiences.
